Subjet: Regulation No. 1907/2006/CE (REACH)

**REACH** (No.1907/2006) is the new Regulation on Registration, Evaluation, Authorisation and Restriction of Chemicals.

It entered into force on 1<sup>st</sup> June 2007. It streamlines and improves the former legislative framework on chemicals of the European Union (EU).

All manufacturers and importers of chemicals must identify and manage risks linked to the substances they manufacture and market. For substances produced or imported in quantities of 1 tonne (1000 kg) or more per calendar year per company, manufacturers and importers need to demonstrate that they have appropriately done so by means of a **registration** dossier, which must be submitted to the ECHA (European Chemicals Agency).

With reference to what foreseen by REACH Regulation, we, OLMEC S.R.L., are taking all the necessary actions in order to comply with such Regulation.

We, OLMEC S.R.L., are neither importers nor producers of Chemicals (as substances, articles and/or class of materials) but as final users of some substances are working in close co-operation with our suppliers to ensure that compliance with REACH Regulation could be managed effectively for the products we manufacture.

Once we get all the information from our suppliers, we will provide you with the updates and in compliance with the terms and method foreseen by REACH Regulation we will review our security documents.

Needless to say we at your full disposal for any additional questions that you may have.

OLMEC S.r.l.
